ULTRASUITE +CLIMATE

THE NEXT GENERATION OF OPERATING ROOM

Price Industries' Critical Environment Systems are recognized for their reliability, performance, and energy efficiency.

Here are some key benefits of the ULTRASUITE +CLIMATE System

Enhanced Thermal Control

Easily manage the operating room environment with an intuitive user interface that allows for rapid temperature adjustments and allows for precise setpoint control and rapid temperature adjustments to meet specific medical needs.

Minimized Airborne Particulates

Advanced HEPA filtration eliminates 99.99% of particulates from the airflow, ensuring cleaner air and reducing airborne contaminants in the surgical zone.

Reduced Surgical Smoke Exposure

Surgical smoke is effectively directed away from the breathing zone of surgical staff, while contaminated air is swiftly exhausted to minimize exposure.

Optimized Energy Efficiency

Lower the demand on central HVAC systems, enhancing energy efficiency and reducing initial equipment costs.
